

Office of Solid Waste and Emergency Response

CONTRACTING OPPORTUNITIES

October 24, 2007

Office of Solid Waste and Emergency Response Organization

Protects public health and the environment by providing policy, guidance and direction on the safe management of wastes; preparing for, preventing and responding to chemical and oil spills, accidents, and emergencies; enhancing homeland security; and cleaning up contaminated property and making it available for reuse. EPA carries out these missions in partnership with other Federal agencies, states, tribes, local governments, communities, nongovernmental organizations, and the private sector.

Office of Superfund Remediation and Technology Innovation

“Superfund locates, investigates and cleans up the worst hazardous waste sites throughout the United States”

Office of Superfund Remediation and Technology Innovation Current Contracts

This office buys ~\$71M annually

- **Mission Support -**

- OSWER Technology Training & Transfer (exp 2012) ~\$30M potential value
- OSWER Management & Analytical Support (exp 2013) ~\$29M
- OSRTI Mission Support (exp 2008) ~\$20-25M

- **Specialty**

- National Priority Listing (exp 2008) ~17M
- Information Call Center (exp 2011) ~\$2.8M
- Technical Assistance for Communities (exp 2013) ~\$7M
- Economic, Technical & Policy Analysis
for the Cleanup and Reuse of Contaminated Lands (exp 2008) ~5-10M

- **Analytical Services –**

- Quality Assurance – 1 large
- Sample Management – 1 large
- Laboratory Support – ~43 mixed

- **Response Engineering & Analytical Contract** (exp 2009) ~\$143M

- **Environmental Response Training Program** (exp 2008) ~\$48M

- **Information Management**

- CERCLIS – Buy in to EPA-wide contract

OSRTI Future Contracts

- Superfund Redevelopment Initiative (Replaces Economic, Technical and Policy Analysis ...)
 - HUBZone
- Environmental Response Training Program
 - 1 Large, 1 Small
- OSRTI Mission Support
 - SDVOB
- Multi Level Matrix Organic Sample Analyses

Major Superfund National Contracts and Designated Leads

- **Response Action Contracts (RAC)** – 18
Remedial Construction and Support at Superfund Sites
(Angela Edwards 703-603-0263)
- **Superfund Technical Assessment Response Team (START)** – 23
Removal Support (Eugene Lee 202-564-7988)
- **Environmental Services Support Team (ESAT)** – 10
Laboratory Support in the Regions (Colleen Walling 703-603-8814)
- **Emergency and Rapid Response (ERRS)** – Removal Action
Tim Grier 202-564-2361)
- **Contract Lab Program (CLP)** - > 40 Sampling (Bruce Means 703-603-8815)
- **Enforcement Support Services (ESS)** – 2 Enforcement Support
(Marlene Lemro 202-564-4257)
- **Regional Oversight Contracts (ROC)** – 8 Support to Federal Facilities
Marie Bell 703-603-0050)

Office of Brownfields and Land Revitalization

“...Protecting the Environment, Promoting Partnerships, Strengthening the Marketplace, Sustaining Reuse...”

- Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of hazardous substances, pollutants, or contaminants.
- Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment.

OBLR Types of Contract Activity

Technical and Analytical Support

- **The large business contract was awarded December 28, 2006 to Systems Research and Analytical Corporation.**
- **The small business contract was awarded May 9, 2007 to Environmental Management Support Inc.**

Large and small business contracts provide:

- Technical research and analytical support
- Program evaluation,
- Communications and outreach
- Data analysis
- Training
- Program planning
- Legislative and regulatory development and analysis
- Facilitation
- Program implementation support

OBLR Types of Contracts (con't)

- **Targeted Brownfields Assessment (TBA) for EPA Regions –**
- **The TBA contract was awarded on September 24, 2007, to a Service Disabled Veteran Owned Small Business (SDVOSB).**

Provides phase I environmental assessment, including a background and historical investigation and preliminary site inspection.

Provides phase II environmental assessment, including sampling activities to identify the types and concentrations of contaminants and the areas of contamination to be cleaned up, and identification of cleanup options and cost estimates based on future uses and redevelopment plans.

Office Of Solid Waste

In 1976, Congress enacted the Resource Conservation and Recovery Act (RCRA). It addressed hazardous waste and huge volumes of municipal and industrial solid waste generated nationwide

OSW, in conjunction with EPA Regional offices and authorized states, oversees the national waste program

- “ Hazardous waste (Subtitle C) - “cradle to grave” management to protect human health and the environment and,
Solid waste (Subtitle D) – supporting state and local governments in managing nonhazardous wastes”

OSW (con't)

- The RCRA program is comprised of several programmatic areas that encourage the adoption of more efficient (i.e., “cradle to cradle” management), sustainable, and protective policies and practices.
 - Corrective Action (e.g., cleanup of RCRA industrial facilities for reuse, evaluating risks to human health & environment from uncontrolled contamination)
 - Waste Management (e.g., permitting hazardous waste treatment, storage, and disposal facilities, providing tribal support, managing international/border work, supporting the Federal Electronics Challenge, encouraging beneficial use of materials)
 - Waste Minimization & Recycling (e.g., minimizing amounts of priority chemicals in wastes, increasing recycling rates for paper, organics, and electronics)
- The RCRA program also manages numerous voluntary programs intended to meet the goals of EPA’s Resource Conservation Challenge (RCC), such as:
 - WasteWise
 - National Partnership for Environmental Priorities (NPEP)
 - Schools Chemical Cleanout Campaign (SCCC)
 - Plug-In To eCycling
 - GreenScapes
 - Coal Combustion Products Partnership (C2P2)
 - Recycling on the Go

OSW Types of Contract Activity

- **Technical Support (TS)** – Development of new analytical methods, sampling and waste handling protocols and Quality Assurance/Quality Control, support for hazardous waste listing determinations, support for the development of hazardous waste combustion standards, support for the development of regulatory background documents, support of voluntary programs and initiatives and data collection and analysis.
- **Policy and Regulatory Support (Pol/Reg)** – Regulatory impact analysis, economic analysis, risk assessments and quality assurance support.
- **Communication and Outreach (C&O)** - Conference support, training, workshops, development of outreach materials, preparations of charts, graphs, photos, maps, brochures and posters.

OSW Contract Volume

- This Office utilizes 5 large contracts and 2 small contracts valued at over \$56 Million.
- Contracts range from small, low dollar value, single purpose to large, multi-year, multi-discipline.
- Each year OSW spends ~\$6.3M on contract activity.

OSW Upcoming Contracts

Currently 1 procurement on forecast:

- Economics, Methods & Risk Analysis Division
Risk Assessment Support Contract. Est. award
mid 2008.
 - Contractor will support initiatives in the management of hazardous and nonhazardous wastes.
 - Support activities will include data collection, coordination of peer review of environmental benefits, cost and economic studies.

Office of Underground Storage Tanks

“ to prevent, detect, and correct leaks from underground storage tanks containing petroleum or other hazardous substances”

CURRENT CONTRACTS

- Remediation of LUSTs in Indian Country
- UST/LUST Program and Technical Support

Office of Emergency Management

“...to protect human health and to safeguard the natural environment...”

- **Clean Water Act/Oil Pollution Act**
- **CERCLA**
- **Stafford Disaster Relief/Emergency Assistance Act**
- **National Response Plan**
- **Emergency Planning and Community Right to Know**
- **Clean Air Act Accidental Release Provisions**
- **Homeland Security Presidential Directives**

EPA's Emergency Response Program

- Respond quickly and decisively to releases of hazardous substances or discharges of oil
- Support state/local efforts...provide safety net
- Under the National Response System (NRS):
 - Cornerstone of national preparation and response to HAZMAT incidents
 - Supported by National and Regional Response Teams
 - Includes Superfund Removal authorities

OEM Types of Contract Activity

- **Technical and Analytical Support** – Provides support to policy documents relating the Superfund, oil, CWA and homeland security initiatives.
- **National Security Emergency Preparedness Support** – Provides trained specialists with security clearances for emergency preparedness work.
- **Decontamination Analytical and Technical Support** – Provides technical and information management support to the U.S. EPA National Decontamination Team based in Cincinnati, OH.

OEM Current Contracts

- Technical & Analytical Support Contract \$21M
- National Security Emergency Preparedness \$3.5M
- Oil Technical Support Contract \$12.5M
- Technical & Analytical Support to the National Decontamination Team \$5M

OEM Upcoming Contracts

- National Security Emergency Preparedness during 2008.
- The two **technical and analytical support contracts** are the result of combining offices to create OEM. The new contract is expected to be in place by the 2nd quarter of 2008.

Major Superfund National Contracts and Designated Leads
